Standard Features

Warm Water: Built in water tank and heater for consistent warm water without having to be connected to hot water supply					
Smart Power Saving: Calculates the time of day when it is most used for maximum savings					
Self Diagnose: Your bidet will tell you when it is not able to perform to optimum standards					
Effective Stream: Utilizes a gentle, aerated water stream that is a mixture of water and air bubbles to ensure a softer, yet more effective method of cleaning					
Self Cleaning: Automatic nozzle self cleans before and after each use to ensure maximum hygiene and to eliminate the need for the owner to clean					
Posterior Wash: Soft but satisfying aerated water stream with a specially designed built-in aerated pump.					
Anterior Wash: A soft, aerated mist for feminine cleansing.					
Oscillating: Nozzle automatically moves back and forth for a wider clean.					
Pulsating: A rapid, pulsating water stream to stimulate bowel movement.					
Warm Air Dry: A pleasant dryer that further eliminates the need to use toilet paper					
Heated Seat: Just another way we keep your comfort in mind					

Hydraulic Seat & Lid: Soft and gentle closing

CLINI-TECH®

"The First non-Bleach Ready-to-Use EPA registered Disinfectant, Sanitizer, and Sanitary Bidet Cleaner"

Ready-to-Use, "one-step" disinfectant, sanitizer, and sanitary Bidet cleaner.
No mixing, no rinsing.

Bidet seats are made of either ABS resin or Polypropylene. Using harsh bathroom cleaners can destroy the surface of the materials and eventually develop cracks.

Clini-Tech is unique sanitary Bidet cleaner formulated for use in regular maintenance programs and will not harm surface.
